

House Bill1063

North Carolina Department of
Health and Human Services
Division of Child Development

House Bill1063 Information for Parents

This bill applies to all centers and homes. The child care law has always required providers to give parents a summary of the law. This bill specifies that the summary inform parents about how to request child care records. Child care providers must give a copy of a summary of the child care law to parents before the child is enrolled. Parents must sign a statement that they received a copy of this summary.

I have received a copy of the NC Child Care Law and Rules.
